**Architect**

VersionAbsolute is one of India's leading multidisciplinary design firm with over 20 years of experience in consulting for projects in India and overseas. Our work is grounded in the belief that design strategy optimizes the efficiency of spaces and creates memorable experiences. We consult from our studios in New Delhi, Bangalore & Hong Kong with the core team of designers working out of our New Delhi office.

This position is available at our New Delhi office.

**Studio Profile**
**VersionAbsolute Design Studio** is a collaborative team of architects, designers, strategists, and design engineers who are engaged with a wide variety of clients on projects of all sizes—from sustainable buildings to product design. As design consultants, we help our clients make their environments, user friendly. Our endeavour is to create climate responsive and sustainable built forms that is scalable and evolutionary.

**You Are**
You will be a self-starter and share our interest in experimenting with materials and processes. You will bring your on-the-job experience to your role lend your talents to a broad scope of work, including helping prepare architectural plans and designs, assisting in essential presentations, developing, and finalizing building plans, and overseeing work done by more junior-level architects and designers.

**Your Skills**
- Ability to provide elegant and efficient design solutions
- Excellent oral and written communication
- Analytical and problem-solving skills
- High attention to detail
- Ability to work under indirect supervision
- Effective interpersonal skills and collaborative management style to include teamwork and team building ability
- Comfortable with ambiguity and time spent outside of comfort zone acquiring new skills
- Technically creative and open-minded

**Your Responsibilities**
- Research, program, plan, design, and administer building projects for clients, applying knowledge of architectural design, construction detailing, construction procedures, zoning and building codes, and building materials and systems.
- Produce conceptual plans, renderings, and documents.
- Plan and program layout of project(s); coordinates and integrates engineering elements into unified design for client review and approval.
- Utilize computer-assisted design software and equipment to prepare project designs and plans.
- Produce construction documents in AutoCAD and Revit.
- Prepare detailed specifications and Bill of Quantities required for projects.

- Work with the Senior Designer, may direct, supervise, and check activities of workers engaged in preparing drawings and specification documents for the Conceptual Design Phase, Schematic Design Phase, and/or the Detailed Design Phase of a project.
- Interfaces with clients and their representatives.
- Research and source materials, meet with suppliers and understand their product/process offerings that are pertinent to our practice.
- Works in tandem with highly collaborative multi-discipline design teams.
- Assists in research and coordination of materials and products for project specifications.

### Your Qualifications

- Bachelor's or master's degree in architecture.
- 3+ years professional experience green buildings, commercial & industrial buildings & interiors or similar studio experience.
- Experience with planning, documentation and management of production/construction drawings & site supervision.
- Expertise in CAD software & Revit, SketchUp, Adobe Creative Suite (Illustrator, InDesign, Photoshop) and MS Office.
- Use of Solidworks, Rhino or other 3D modelling/parametric programs a plus.
- Working knowledge of motion graphics software, digital video editing, or other skills related to designing for and creating dynamic content a plus.

For consideration, please submit, along with online application, a personal portfolio that contains examples of fully realized and produced graphic project work. Process sketch books are appreciated.

### Life at VersionAbsolute

At VersionAbsolute, we are as committed to enjoying life as we are to delivering best-in-class design. From curated art exhibits to internal design competitions and hackathons, to "Jammy Evenings," our offices reflect our teams' diverse interests. At any pointy in time, we have multiple office collaborative experiments, many of them being design tech projects. We will draw upon your enthusiasm and skill collaborate and develop ongoing and future experiments.

We are looking for team members with a diversity of interests, who can value add to the quality of the shared experience within the office. We have team members who are musicians, some of us are avid adventure motorbicyclists, skilled illustrators and what we all share is a common appreciation for keeping things light & breezy.
